

Terms and Conditions for Medical Prescription Use

1. Prescription Validity

This prescription is valid only for the patient named and for the specific condition diagnosed by the prescribing physician. It is not transferable or reusable.

2. Usage Instructions

Medications must be taken exactly as directed. Any deviation from the prescribed dosage or schedule may result in reduced effectiveness or potential health risks.

3. Follow-Up and Monitoring

Patients are advised to return for follow-up consultations as recommended. Regular monitoring may be necessary for certain medications or conditions.

4. Storage and Handling

Medications must be stored as instructed on the label or by the pharmacist. Keep out of reach of children and pets.

5. Allergies and Side Effects

Inform the prescribing physician of any known allergies or adverse reactions to medications. If any serious side effects occur, seek medical attention immediately.

6. Prohibited Use

The prescribed medication must not be used for any condition other than that for which it was prescribed. It must not be shared with others.

7. Refills and Renewals

Refills are only allowed if indicated on the prescription. Renewals require a follow-up consultation with the physician.

8. Pharmacy Instructions

This prescription must be presented to a licensed pharmacy for dispensing. The pharmacist reserves the right to verify the prescription with the issuing physician.

9. Liability Disclaimer

The prescribing physician and affiliated medical practice are not liable for complications arising from misuse, unauthorized alterations, or failure to follow instructions.
